Indonesian OIL PALM & REFINERY Directory, 2017

Indonesian oil palm industry has still been under pressure in the last three years (2014 – 2016). Global economy which has yet to improve makes the demand for CPO in international markets to be hard to increase so CPO price keeps on fluctuating. Heavy pressure faced by oil palm industries in the country hampers the expansion steps which have already been set earlier. Many oil palm companies carry out efficiency by reducing production capacity and applying economization in various sectors.

Lots of Indonesian oil palm companies which have successfully faced this heavy pressure, particularly large sized companies which have already controlled strongly local and international markets. These companies are also successful in developing various oil palm downstream products since they do not want to depend on CPO trading only. However, based on the investigation output and data compilation of CDMI, it is also found facts that there are many Indonesian oil palm companies which are not able to maintain their business so they sold their plantation areas and oil palm plants with improper price.

Although in 2016 Indonesian oil palm industry has yet to be stable, many observers believe that in 2017 and 2018 oil palm industry will get its prosperity. That is why new investors keeps on appearing, either local or foreign investors. Based on information received by CDMI from Capital Investment Coordinating Board (BKPM) that in 2016 there are hundreds of new oil palm companies which have already obtained permits to open oil palm plantation areas with fantastic investments and in 2017 new permits keep on increasing.

Viewing the dynamics of oil palm industry in the last several years, CDMI as a consultant company with expertise in data compilation is attracted to perform an investigation for six months towards oil palm companies in the country and finally succeeded in publishing a book with the title of Indonesian OIL PALM & REFINERY Directory, 2017.

This Directory Book contains **more than 1,500 oil palm companies in entire Indonesia** of which the data has already been updated so it is strongly required by heavy equipment industry, manufacturing industry, fertilizer industry, nurseries, steel industry, agricultural equipment industry, food industry, pharmaceutical industry, banking industry, trading industry, contractor and other supporting industries. It is exclusively published by CDMI and ordered directly through our marketing division Mrs. Tina by phones (021) 3193 0108, 3193 0109, 3193 0070 or Fax (021) 3193 0102 or e-mail: marketing@cdmione.com at a special price of Rp. 5,500,000.- and US\$ 420 for foreign price.

Having submitted this offer, we thank you for your cooperation and look forward to hearing your response promptly.

Cordially Yours,
P.T. CDMI
